Our Vision

Vision Statement
Rapid Eye Technology offers freedom to choose an innovative vocation with practical skills and tools inspiring balance and gratitude. RET advances education, support, and attracts opportunities, creating authentic community, and prosperity with purpose.

Core Values and Principles
Rapid Eye Technology, Inc. (RET) and The Rapid Eye Institute, prides itself on high standards of excellence and attention to technician support. Core values are integrity, community, ideology, being centered in self-care, and inspiration to self and others. Home study courses and on-site certifications are accommodated with flexibility and sensitivity.

RET programs are built on a non-denominational path of study that emphasizes learning a tool and skill that inspires your inner direction. We believe our programs assist you in finding your individual and personal spiritual mission through the discovery and development of your own spiritual given gifts, creating innovation, and a rewarding vocation.

Students who enter this program embark on a unique journey into transformation — learning the meaning of being a whole, healthy, and an authentic individual by starting with self. This program is founded in a deep understanding that good health is a balance between physical, mental, emotional, and spiritual well-being. Beginning with the Phases 1-4, these include introductory classes such as Immediate Release Technique (IRT), Skills For Life (Facilitator skills), and Life Coaching. These prepare you for Phase 4 where Rapid Eye Technology itself is learned.

Students look at their own pattern cycles, developmental stages, studying the 7 Skills For Life principles, inner child work, negative core belief releases, addiction studies, family relationships, and chakra energy psychology. In Advanced and Master Level courses, students learn leadership, marketing, social media, archetypes, defense sets, essential oil
studies, light and sound technology, eye patching, and good self-care. As students craft their intention in the field and further discover their healing gifts, they explore areas including self-knowledge through self-improvement, energy disciplines, conflict resolution, professional boundaries and communication.

Graduates of our program have found that RET works well in tandem with other healing modalities, licensed professionals, and care facilities; such as chiropractic clinics, wellness centers, counseling centers and energy modalities.

The graduates of RET Basic, Advanced, Master, RET Energy Psychology and Leadership Immersion…Souls With Stamina and with at least 2 years of experience — also have the option to enter our Train-The-Trainer Program. This enables you to train others in this dynamic model!

Are you interested in Rapid Eye, but not sure about signing up for the full program? At RET we are so committed to help you achieve your dream that we invite you to take a test drive on our website with our no charge Stress Reduction Videos, sign up for our newsletter and take our no charge Skills For Life class and workbook. Academic

Attendance: Students who choose to attend The Rapid Eye Institute also choose to participate actively in the learning process offered by The Rapid Eye Institute. Students are required to attend all class sessions; a student may be administratively withdrawn from a course by the instructor(s) for excessive absences. Excessive absences refer to on site certification, which require student to be present during the entire training. If a student is unable to attend the entire training, the time missed is made up in another training or with a RET Trainer. Please refer to the class syllabus for attendance requirements.

A leave of absence will be granted in case of illness, death in the family or other extenuating circumstances. The Rapid Eye Institute must sanction the absence as valid. Each case will be administratively reviewed independently. In any sanctioned leave the on-site time and course work missed must be completed at a future date arranged by both the student and The Rapid Eye Institute. All make up time/work must be completed within one year of the occurred absence.

Tardiness will result in having to repeat missed course work. Make up work can be scheduled at a time that is satisfactory to the student and school. Student is marked tardy when arriving one half hour after training starts.

Grading System and Progress Standards

Letter grades are awarded in the following categories:

- I—Incomplete - no grade points (see statement on incomplete grade policy);
- P—Passing - indicates satisfactory completion. Has no grade point value;
- W—Official withdrawal;
- **Z**—Unsatisfactory performance, failing.

Grading is a pass or fail based on the ability to perform all skills in the Hands-On Certification. Records will be maintained by The Rapid Eye Institute and made available to the student. An incomplete grade (I) indicates work in progress. Incomplete grades are subject to instructor’s discretion.

An incomplete grade will be changed to a failing grade if the work is not completed within the first year following the grade disposition. Students must maintain satisfactory progress while enrolled in each certification course. Each student is evaluated on their skill level. The overall objectives of The Rapid Eye Institute’s Standards of Academic Progress and Performance are to assist students toward program completion and successful academic performance.

The Rapid Eye Institute will not penalize students who are sincerely trying to make good use of the instructional services. Nevertheless, there may be instances when The Rapid Eye Institute determines that a student is not benefiting from continued enrollment. In such cases, The Rapid Eye Institute may take steps to limit or deny future enrollment to that student. A complete administrative review will be required for such action. The Rapid Eye Institute will monitor all students indicating certificate intent to insure completion within a reasonable time. **Phase One Course** completion date: Two months or sooner. **Phase Two Course** completion date: Two months or sooner. **Phase Three Course** completion date: Two months or sooner. **Phase Four Course** completion date: Four months or sooner. The Institute will intervene at two stages:

1. At the occurrence of one incomplete grade or leave of absence, The Rapid Eye Institute will invite students to participate in education program planning sessions. Students requiring individual assistance will have the option of meeting with an advisor/mentor.

2. Academic sanctions will be imposed on students who are not adhering to the designated educational program plan. Academic sanctions depend on the complexities of the academic deficiencies.
Academic sanctions may include either of the following:

- Academic suspension, (student does not complete course and finals within the allotted time) and/or;
- Academic dismissal. (Student does not meet with advisor to extend the maximum time (one year).

Academic suspension will be removed from suspension as soon as student meets with RET advisor to extend time and or finish finals.

Academic dismissal can be removed by re-enrollment (extending time for course completion an additional year), by contacting RET advisor. Faculty will identify and alert students who are having academic difficulty.

**Discipline**

Students shall be a credit to themselves and to The Rapid Eye Institute. All school rules must be followed, including those outlined in The RET Certification Participation Release.

The school administration maintains the right to dismiss students for violation of rules or for conduct that reflects unfavorable on the reputation or operation of the school. If a student is terminated for any reason, re-admittance will be evaluated on an individual basis according to the evaluation of the school officials. Reentry to any program by a student that voluntarily withdraws will be allowed.
